

# All About Grunion

***Did you know*** that in the spring & summer months when the earth, sun & the moon are aligned in the night sky a spectacular sight happens at Cabrillo Beach ~ it's called a ***grunion run!***

Thousands of small, silvery fish come in with the tide, wiggle their way onto the sand and lay their eggs along the shoreline. Scientists have studied this unique phenomenon for decades, and are still trying to understand how these dazzling fish and their unique behavior are linked with the moon, the stars and the tides.

Learn more about the ***grunion*** fish and how we think they might navigate their way to our shores during the highest tides.

Just visit your library's online digital collection & discover the variety of ***eResources*** available to you. Download library ***eBooks*** and ***eAudiobooks*** to your laptop, tablet, ***iPad*** or any other mobile device.

Browse, checkout and borrow these one-of-a-kind books on the elusive grunion fish. As well as, other unique books that highlight some of the extraordinary places, marvels & wonders that connect us to the natural world and beyond!

***"Shoot for the moon. Even if you miss it you will land among the stars"*** ~ Les Brown
