

High school students interested in the **Young Scientists Program** must attend this event as part of their application. To apply, go to cabrillomarineaquarium.org/research. About a dozen research positions for 2018-2019 will be filled from this event. Attendance at the entire event is required.

Research Program Icebreaker

Sunday May 20, 2018

10:00am—3:00pm

- Young Scientists Program is free and starts immediately in June.
- Commitment is for one workday every week from May 2018—March 2019.
- Students must work independently in a professional laboratory setting.
- Non-invasive research on local conservation issues only.

Email aquaticnursery.research@cmaqua.org to attend or request program application.
